Mobile greenhouse from Anton Balle

Henrik Gabriel MAA

March 24, 2017

Products

Anton Balle manufactures the mobile greenhouse Urban Green House, designed by Line Grüner.

The house is produced in northern European heat treated ash wood from PEFC certified forests.

There is room for two capillary boxes in the house and there is a small storage room, which can also be used as a seat.

Moreover, there is room for an extra chair so you can have a guest visiting.

Spring is on its way
